

Space:Maker Classic™

Sliding Wardrobe Door System

Australian
Design Award

This quality product has been selected to hold the certification mark of the Australian Design Award.

Independent specialists have carefully assessed it against 42 design factors covering:

- Performance • Maintenance
- Value • Ease of use • Durability
- Appearance • Safety • Construction

The Australian Design Award recognises well-designed products of International Standard.

STANDARDS AUSTRALIA 

Proudly Australian made and exported

Features

- round, modern appearance
- concealed concave 41mm diameter rollers and brackets for quiet operation and ease of adjustment
- matching infill buffers on grip stile
- continuous finger grip on all panels
- solid bottom rail facilitating fully concealed roller assembly
- 10-year guarantee on frame and components

Design Flexibility

Made to suit your individual requirements.

Space:Maker Classic™ wardrobes are suitable for either wall-to-wall or corner return installations.

Constructed from high quality aluminium extrusions, **Space:Maker Classic™** is designed to suit most situations and ceiling heights up to three metres.

The continuous finger grip on all door panels provides additional strength and ease of use.

Exceptional Value

Indulge your imagination and create an absolutely premium wardrobe design at a surprisingly affordable price.

Safety

Space:Maker Classic™ Sliding Wardrobe Door System is glazed to comply with the requirements of Australian Standards AS 1288 and AS 2208.

Product Guarantee

Space: Maker Classic™ components and frames carry a 10-year guarantee when used under normal operating conditions.

Modern Contoured Cushioning

Matching infill buffer with grip stile eliminates metal-to-metal contact and gives **Space:Maker Classic™** a smooth, modern contoured appearance.

Robust Bottom Track

Space:Maker Classic™ features a robust, raised track design which neatly accommodates the concealed concave roller mechanism, providing a consistently stable and smooth sliding operation.

Concealed Concave Roller

Fully concealed, large diameter concave rollers ensure quiet operation. And strong, galvanized metal, adjustable brackets allow for out-of-square adjustments to be made with the turn of a screwdriver.

Solid Bottom Rail

Together, the solid bottom rail and robust track provide strength and durability, producing a smooth sliding operation.

Panel Variety

Space:Maker Classic™ is available in clear or tinted anti-shatter, safety-backed mirror panels. Plus a wide range of wood grain or vinyl finishes. Plain panels for painting or wallpapering are an alternative for the do-it-yourself enthusiast.

SPACE:MAKER SLIMLINE™

SLIDING WARDROBE DOOR SYSTEM

Exceptional Value

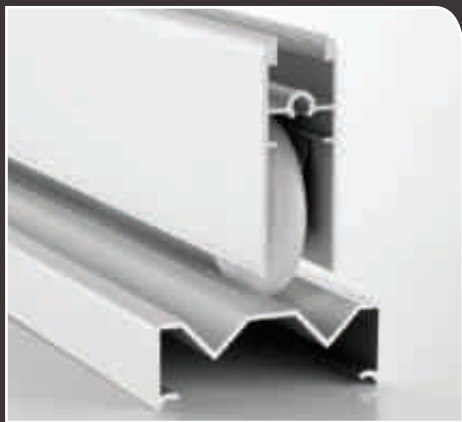

Indulge your imagination and create an absolutely premium wardrobe design at a surprisingly affordable price.

Features

- **Space:Maker Slimline™** tracking and jambs only measuring 57mm in width.
- Contemporary appearance.
- Concealed convex 41mm diameter rollers and brackets for quiet operation and ease of adjustment.
- 10-year guarantee on frame and components.
- Foot-friendly, easy-to-clean track.
- Continuous finger grip on all panels.
- Head guide device prevents door panels from jumping off the track.
- Matching infill buffers on grip stile.
- Solid bottom rail facilitating a fully concealed roller assembly.

Panel Variety

Space:Maker Slimline™ is available in clear or tinted anti-shatter safety backed mirror panels and coloured safety glass. A wide range of acrylic, wood grain and vinyl finishes are also available. Plain panels for painting or wallpapering are an alternative for the do-it-yourself enthusiast.

Concealed Convex Roller

Large 41mm diameter convex rollers and strong galvanized metal adjustment brackets, which are rebated and concealed in the door bottom, ensure quiet operation and allow for out of square adjustment to be made with the turn of a screw.

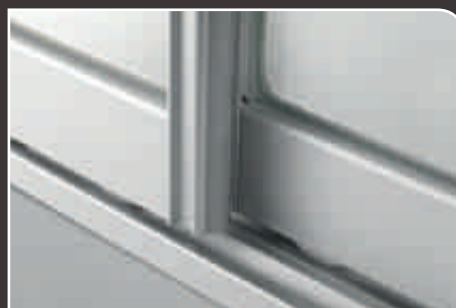

Perfectly Secure Panels

Innovative head guide feature, which is incorporated in a panel screw fixing design, ensures the panels cannot jump the track and are perfectly aligned providing quiet rattle-free operation at all times.

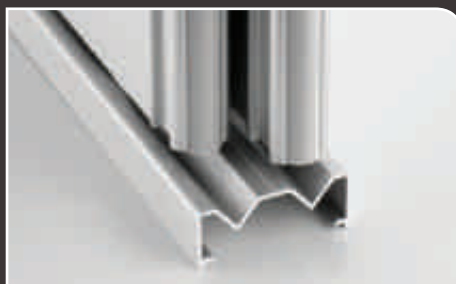

Contemporary Cushioning

Matching infill buffer with grip stile eliminates metal to metal contact and gives **Space:Maker Slimline™** a smooth, contemporary appearance.

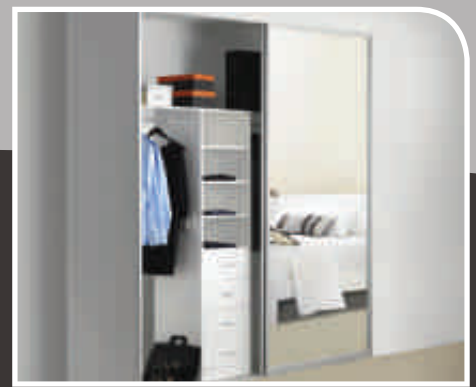

Low Profile Bottom Track

Space:Maker Slimline™ with a foot-friendly unobtrusive, low-profile design and easy-to-clean V-grooved bottom track, roller side-play is virtually eliminated, producing a smoother sliding operation.

Solid Bottom Rail

Together, the solid bottom rail and V-grooved bottom track provide strength and durability, eliminating roller side-play, resulting in a smooth sliding operation.

Design Flexibility

Made to suit your individual requirements.

Space:Maker Slimline™ wardrobes are suitable for either wall to wall, freestanding or corner return installations. Constructed from high quality aluminium extrusions, **Space:Maker Slimline™** is designed to suit an extensive range of configurations and applications. The continuous finger grip on all door panels provides additional strength and ease of use.

Safety

Space:Maker Slimline™ Sliding Wardrobe Door System is glazed to comply with the requirements of Australian Standards AS1288 and or AS2208.
